Just for fun...

Read the following sentence:

FINISHED FILES ARE THE RESULT OF YEARS OF SCIENTIFIC STUDY COMBINED WITH THE EXPERIENCE OF YEARS.

Now count aloud the F's in that sentence. Count them ONLY ONCE; do not go back and count them again.

There are six F's in the sentence. One of average intelligence finds three of them. If you spotted four, you're above average. If you got five, you can turn your nose at most anybody. If you caught six, you are a genius.

Call to all Professors...

The psychology advising office would like to put professors in touch with students looking for research and volunteer opportunities, as well as internships. If you would like to post any opportunities available please email us in the advising office: psyadvising@psychology.sdsu.edu. We welcome any faculty postings!
